TO THE MEMBERS OF THE CLASS 1964-1965

The school year, 1964-1965, has had a great meaning to the many students of Framingham North High School. The accomplishments have been many and have been in all fields of activity which we find so important to success in our complete program.

The Class of 1965 has been the natural and very effective leader at North High during this year. Academic honors have come through the National Merit Foundation to some. Special experiences have been given to others at the United States Quartermaster Laboratory. Individual honors have been received by students for Science Fair and Math Fair, for accomplishments in music, in debating and in drama. The sports program for boys and girls has had a unifying effect in our school. Our successes have come about because of a desire to do well and our school spirit is now well known throughout the area.

This year's Senior Class should feel proud of its accomplishments. Our school is a relatively new one and only through devoted purpose on your part has a firm foundation been formed for others to use. This you have done and done well.

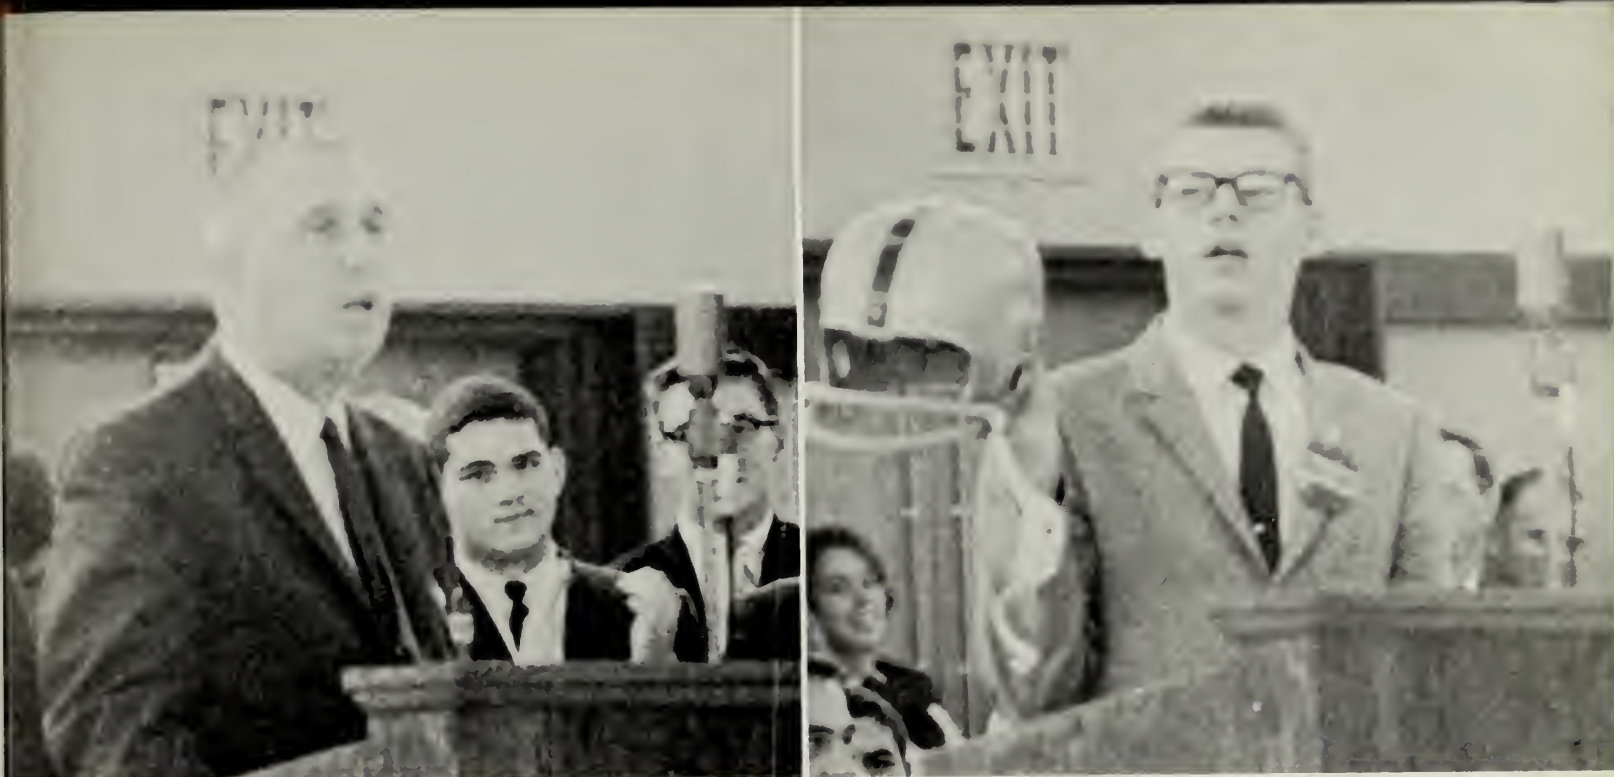

It has been my pleasure to know and work with many of the members of this class. I know that you will continue to work diligently for the good of our communities and our nation. May the future bring to each of you that happiness which makes for full and useful lives.

#### TO THE MEMBERS OF THE CLASS OF 1964-1965

We are standing on another bridge of life, waiting for our turn to cross into another world quite different from the one that we have grown accustomed to in the past four years. With our diplomas finally in our hands, it will be our turn to cross the bridge and enter that other world, whether it be college, military service, or employment.

Our first two years of high school were spent as part of Framingham High School; then we learned that we were to become part of a dream come true, an idea turned into a reality—Framingham North High School. We entered into a new society—a society of new buildings, new administrators, new teachers, and new friends. We were challenged with the problems of initiating new activities, new programs, and new clubs. We played an important part in the formation of not only the building itself, but also its spirit, social life, and academic programs. We took the bare foundations established by last year's seniors and built upon them the gleaming edifice that stands before us now. Yet, we have left still much to be accomplished by succeeding classes—the polishing of what is built, with spirit as the architect.

I believe that the Class of 1965 has left an indelible mark on the history of North High and the town of Framingham. Success has been our goal and unity has been our traveling companion. Although graduation may separate us as individuals, it cannot separate us as a class. It is my sincere wish that each and every one of you travels the road to success and chooses the right traveling companions—pride and good judgment. As Robert Frost wrote, “. . . I took the path less traveled and that has made all the difference.”

On behalf of the Senior Class, I would like to take this opportunity to thank the administration, faculty, and advisors of North High for guiding us to this bridge and for showing us the way beyond.

## student council

Under the direction of the student council, the students co-operated in collecting a sizeable amount of canned goods and used clothing which, when distributed to needy families, made Christmas merrier. Besides organizing and conducting rallies, the council has co-operated with the Key Club in producing a handbook for incoming Freshmen.

As Seniors, the Juniors who were inducted last spring began the first year long National Honor Society program. During the football season Society members spent long hours making green and gold pompoms. After taking several field trips, Society members devoted themselves for the remainder of the year to making elaborate preparations for the spring induction of Juniors.

## debating

This year the debate club was divided into a tournament varsity team and an intramural group. Besides active intra-club debates the team earned a good record.

**Before you accept  
that first job . . .**

**Look over  
your  
employer  
as carefully  
as he does  
you**

What's the Company like anyway? Would I be proud to work there? Reputation for square dealing with employees? Pleasant surroundings?

Will I be working with others my own age? Are they friendly? Do they socialize after hours?

Will the boss be reasonable? Appreciate good, hard work, but won't explode if I make a mistake?

Will I make a decent week's pay? Have a chance for raises, advancement, more responsibility? How about fringe benefits?

Is the work challenging? I had what it takes to get through high school. Will they give me a chance to use my brains?

Note: Many young men and women in this area can answer "Yes" to these questions. They work for New England Telephone Company . . . New England's largest employer.

Why not talk with our employment interviewer soon . . . before you graduate? Ask your Guidance Counselor to tell you when and where to apply.

## Congratulations to . . . the Class of '65

We know the sigh of relief that comes at the end of your final exam. Long years of study behind you, and a big wide world ahead.

But even at that it isn't the final test—of the end of your learning. The biggest tests still face you in the choice and fulfillment of your life's work.

Many plan for college, some must reckon with the armed forces, others will seek positions in industry, trade, business. We, at Dennison, congratulate you on your past accomplishments; if your future plans call for steady employment or summer work, we'll be glad to discuss your problems with you.

Our Employment Department will welcome the chance to outline opportunities existing in our offices, factory and warehouse.
